February 7th 2022

Existing damaged wall

Our existing retaining wall was struck by a vehicle in a traffic accident
In order to not have two sections with two different colors

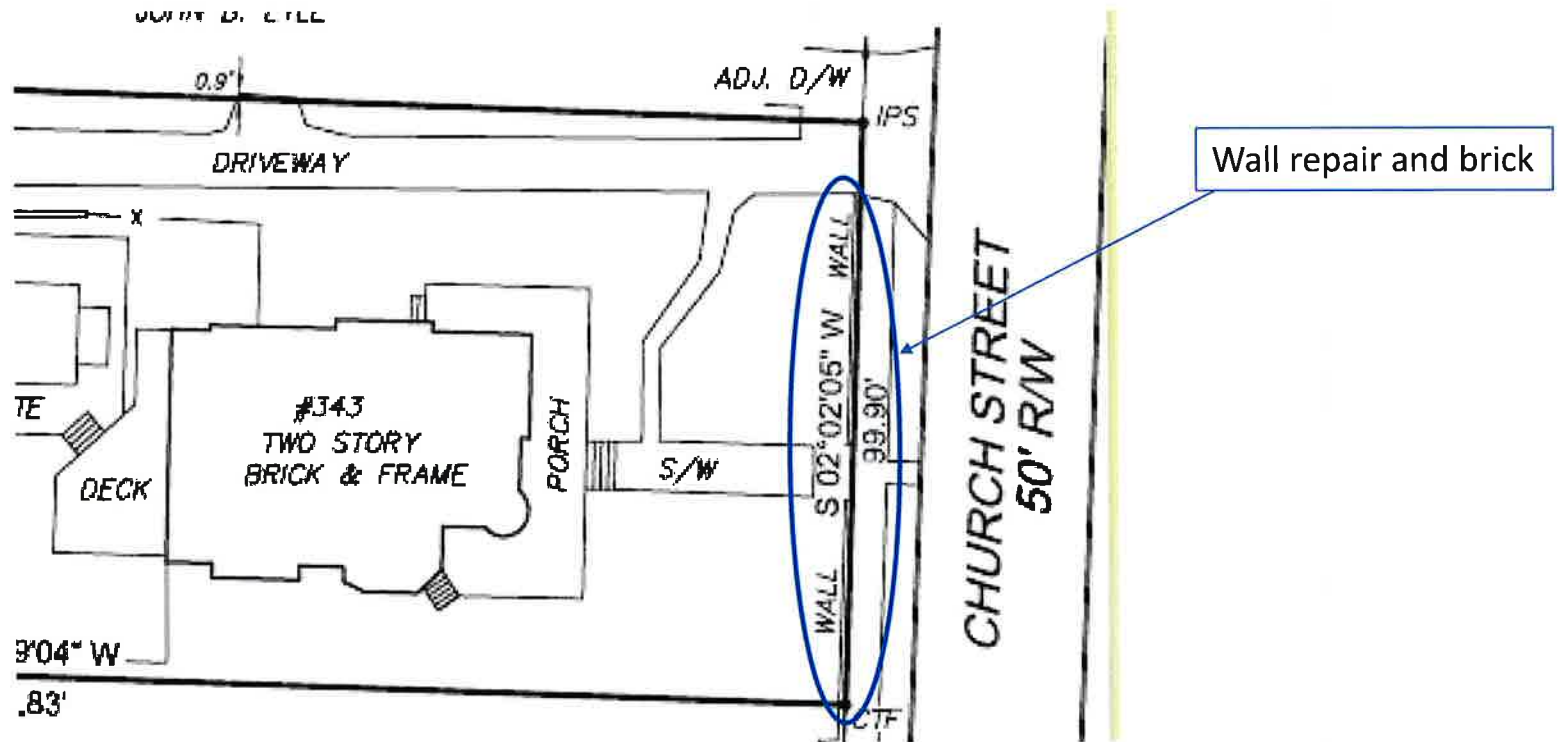

Change to front and top of wall

In order to not have two sections with two different colors we will repair the destroyed section and then wrap the front and top of the wall (see included survey for location and length) with brick in the manner shown.

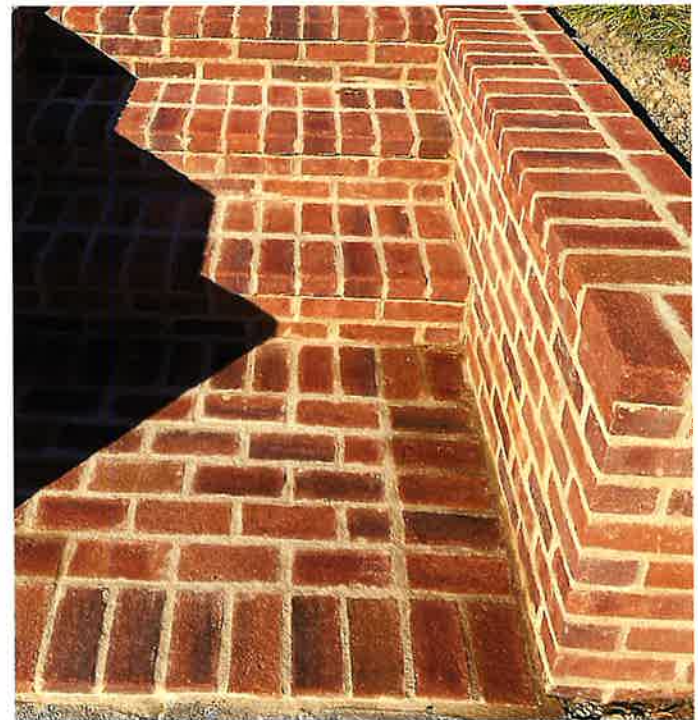

Land Survey for wall

In order to not have two sections with two different colors we will repair the destroyed section and then wrap the front and top of the wall (see included survey for location and length) with brick in the manner shown.

Steps

As part the repair process, the steps will also need to be replace with brick to match the wall.

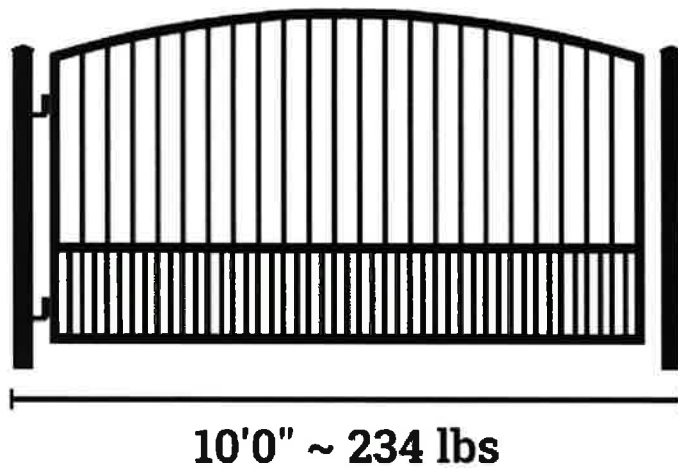

Gate Posts

We intend to also add a gate to match neighbor's gate both in design and height. There will be pedestrian access between the two posts.
